As a recent Accounting graduate with a passion for data, I am an aspiring Data Analyst eager to turn complex datasets into clear, actionable insights. With a strong foundation in statistics and hands-on experience as a Statistics Lab Assistant, I have developed skills in SQL, Excel, and data visualization tools such as Tableau and Power BI. Throughout various academic and personal projects, I've sharpened my analytical thinking and developed a deep interest in the entire data lifecycle — from collecting and cleaning data, to analyzing and visualizing it for better decision-making. My curiosity and attention to detail drive me to ask the right questions, uncover hidden patterns, and tell compelling stories through data. I am continuously learning, whether it's diving deeper into Python for data analysis or improving my dashboard design and visual storytelling skills. I'm excited to grow professionally and contribute to data-driven environments where insights have real impact.

Work Experience

June - June 2025

Data Scientist Virtual Internship

Online

Rakamin x id/x Partner

- Processed raw data related to credit risk to build a machine learning model that is able to predict
 potential default by borrowers. This model plays a vital role in helping lenders make more
 accurate decisions in assessing credit applications.
- Created informative and engaging data visualizations using python libraries (pandas, numpy, matplotlib, seaborn, scikit-learn, scipy, sklearn). These visualizations are used in professional presentations to effectively convey key insights

March - July 2023 Semarang, indonesia

Statistic Lab Assistant

Universitas Islam Sultan Agung

Teach in a class with 35 active students and helped lecturer for created exam questions and teach
the basic concepts of descriptive and inferential statistics, and help students use data analysis
tools such as Excel and other statistical software (IBM SPSS), as a foundation.

February - June 2022 Semarang, Indonesia

Digital Accounting Lab Assistant

Universitas Islam Sultan Agung

Mentored students in the use of office applications such as Microsoft Excel, Word, and
PowerPoint. The main focus is on the application of Excel for financial and accounting data
analysis, including data processing, visualization, and report generation that supports basic
understanding of data analysis in the context of digital accounting.

Project Experience

Credit Risk Analysis • Data Analysis Project (2025)

- Identified patterns and risk factors from borrower data.
- Assessed **credit risk level** (low, medium, high).
- Provided **insights** to help make more accurate credit decisions.

Pizza Sales Analysis • Data Visualization & Analyst Project (2025)

- Presented daily and hourly sales trend visualisations.
- Analyzed performance by pizza category and size.
- Identified the best-selling and least popular pizza menus.
- Provided **recommendations** to increase sales and customer satisfaction.

HR Attrition • Data Visualization Project (2025)

- Analyzed the main factors that influence employee turnover.
- Identified common characteristics of employee attrition.
- **Provided** data-driven **insights** to improve employee retention.

Walmart Sales Analysis • Data Analysis Project (2025)

- Identified **sales trends** by branch, product, and time.
- Analyzed customer behaviour and segmentation by gender, payment method, and product category.
- Provided **strategic insights and recommendations** to increase sales.

Blinkit Sales Analysis • Data Analysis & Visualization Project (2025)

- Analyzed **consumer spending patterns** and peak transaction times.
- Identified **best-selling** and least-selling products and categories.
- Evaluated branch performance in terms of orders and deliveries.
- Discovered market opportunities and promotional effectiveness.
- Supported business decisions with data-driven dashboards

Technical Skill

Soft Skill

- Analytical Thinking
- Communication Skills
- Attention to Detail
- Problem-Solving

- Time Management
- Adaptability
- Storytelling with Data
- Critical Thinking

Education

Universitas Islam Sultan Agung

Bachelor Degree in Accounting IPK 3.65/4.00

September 2020 - June 2024

Kampus Merdeka x Synthesis Indonesia

AI Gen Z for Jobseeker

June - December 2022

- Research Assistant
- Ministry of strategic studies and advocacy staff BEM FE UNISSULA 2022
- HR Division BSO ORI FE UNISSULA 2022-2023
- Committee of the Dean Cups 2022
- Studi Independent Bersertifikat by Kampus Merdeka Batch 3 & 4

Kampus Merdeka program aims to provide opportunities for students to learn and develop themselves through activities outside of class lectures on campus. However, it is still recognized as part of the lecture. In this activity, I learned from the basics of python programming to a more advanced level.

Course and Certificate

- Data Scientist by Rakamin x id/x Partner (2025)
- SQL Basic Intermediate by HackerRank (2025)
- Microsoft Excel, Word, and Power Point by My Skills -(2024)
- AI for Gen Z Jobseeker by Kampus Merdeka x Synthesis Indonesia - (2022)

Language

- Indonesia Native
- English Intermediate
